➔ Sales Rep Supplies

(Contact: Linda Haynes, #2234)

- Last several productions of Form 4050, Bi-Weekly Expense Report (item #190269) have been printed with an incorrect bar-code, making micro-filming of reports labor intensive. Corrected forms delivered to warehouse (GATX) on 8/7/97. Please limit initial reorders to 1 SKU (20 per pack) per person to ensure everyone receives revised forms.
- Effective with Bi-Weekly Period Ending August 24, you must begin using corrected form (revision date of 7/97). All other supplies of this form should be destroyed immediately.

➔ SIS 'M70 Report Format' Report Enhancement

(Contact: Chris Minner, #1642)

- Report Formatting located in SIS Master List function M70 has been enhanced for local indicators.
- Specific local indicators will be displayed for selection along with abbreviation '(LI)' and reported based upon sales geography selected on 'M01' Master List Selection screen. Local indicators will not be displayed properly for area and national report selections since local indicators are established by region.
- Effective Date: Monday, August 11, 1997

(Contact: Stephanie Fields, #7742)

- Reminder: MSA portion of Business Information - SIS will be eliminated effective August 11, 1997. MSA data available through Mercury (refer to FSC-123-B).
